FACE atelier

Sophisticated, versatile makeup that simply works. And works simply.

FACE The star of the line – innovative **Ultra Foundation** lets the customer be in control. The hydrating, highly pigmented, silicone-based emulsion floats on the skin, filling in tiny lines and pores for a fresh look all day. **Zero Plus** and **Zero Minus** permit infinite adjusting of foundation shades. Enjoy medium to full coverage that builds, but is sheerable for a 'barely there' finish. Ideal to custom tint a favourite moisturizer or sunscreen. **Ultra Sheer, Ultra Camouflage Duet, Ultra Blush, Ultra Pressed** and **Loose Powders**, applied with the precision of our **Essential Brushes**, complete the flawless finish.

EFFECTS Do you believe in magic? FACE atelier does!

Best-selling **Transforming Gel** is a lightweight mixing medium that magically turns a shimmer, cake eyeliner or eye shadow into a rich, pigmented paint that sets and lasts forever without escaping into the fine lines and creases that surround the eye. Preserve and hydrate makeup with **Face Finish**. New this fall: **Lip Putty**, a magic bullet that fills lines in and around the lips, and **Lip RX** – a tinted, hydrating moisturizer for the worst winter lip, in three soothing shades.

COLOUR Fabulous, but not frosted. The creamy, long-lasting **lipsticks** are perfectly complemented by ultra slick-no stick **Lip Glaze** that hydrates while it shines. **Eye shadows**, sold pan-only, allow the customer to create her own custom four-well palette. The micronized formula is creaseless and long lasting. The pure mica **Shimmers** offer chic, contemporary shades that can be used as an eye shadow; to highlight or mixed with **Clear Lip Glaze** to create a unique gloss that is hers alone.
